

CALIFORNIA CLOSETS®

THE art & beauty OF  
**CALIFORNIA CLOSETS®**

**OUR MATERIAL**

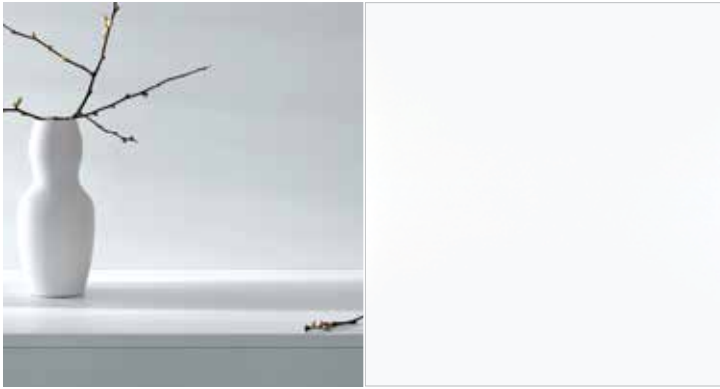

The foundation of all our systems is a laminated board that provides enduring performance and a uniquely versatile palette of finishes that won't warp or fade over time, is scratch-resistant, and ensures color consistency. Made in North America and Europe from recycled wood fibers, it offers a more sustainable option than raw resources. All our finishes are CARB-compliant and safe for the environment, meeting the California Air Resources Board regulations for emission standards.

**OUR PALETTE**

This thoughtfully sourced and composed palette of fine finishes and saturated colors expresses our design sensibility and deep commitment to exceptional quality. For this considered selection, developed to work in every part of the home, each element was chosen to stand on its own or layer harmoniously.

# CC Luxe Matte™ Collection

Luxuriously smooth, this non-reflective surface has an inviting, velvety feel. Deep Pond features an innovative lacquer finish that resists fingerprints and scratches.

## CARE

*A dry cloth is preferred to wipe down the system, but a non-abrasive household cleaning spray will remove any unwanted substance.*

*Wood cleaner is not recommended as it leaves a residue.*

## THE CC WARRANTY

*Every custom California Closets system comes with a limited lifetime warranty on materials and workmanship.*
